

Quick, Live Event Coding!

Sportstec has revolutionized performance analysis around the globe, and is about to do it again with its hottest product-offering CODA.

CODA is the latest addition to the Sportstec family of products, which has dramatically changed coaching staff's game analysis capabilities.

Don't need to capture and review video footage live, then CODA is perfect for you! Designed to work in conjunction with any SportsCode video analysis system, CODA gives you live coding capabilities previously only dreamed of!

CODA runs on palm size PDA's and enables you to set up user-defined templates for Live Coding. It is so simple to use – just point and touch!

With CODA, you can:

- Collect vital game day statistics and information
- Analyse individual and team performances – including the competition.
- Save hours and hours of time
- Customise your own analysis templates
- Enter data on your palm pilot, laptop or desktop PC
- Link data to video through any of the SportsCode products
- Export data for further analysis
- Dramatically improve your productivity
- Easily edit data during and after an event

"I use CODA on the bench during games and on the court during practices. Coda gives us the freedom to code on the fly at the point of action.

With CODA, our video analysis is ready to be presented minutes after the game or practice. Zero time is now spent on post coding our video.

With multiple CODA's, we are gathering data never gathered before.

Sportstec has revolutionized our video analysis capabilities and methodology."

*Walt Rock
Seattle Supersonics*

Technical Requirements:

PDA (iPAQ 6365)
OS Microsoft Pocket PC 2003
Missing Sync for Windows
