

SPORTSTEC
MERCURY™

SIMPLY SMART

Sportstec Mercury is the latest addition to the innovative range of sports technology products by global sports software company Sportstec.

Developed specifically for volleyball coaches by one of their own, Sportstec Mercury has volleyball intelligence that makes it the smart choice.

Sportstec Mercury is a complete match day coaching solution that is proven, reliable and stable. Easy to use, flexible and powerful – Sportstec Mercury helps volleyball teams to stay at the forefront of the competition.

Sophisticated video analysis capabilities are combined with industry leading statistical and trajectory data that help coaching staff to make competition-winning decisions.

Game analysis. Scouting. Player Evaluation. Whatever your needs, Sportstec Mercury is the smart volleyball solution.

HOW DOES SPORTSTEC MERCURY WORK?

Sportstec Mercury has been designed to logically capture and code specific instances - based on your own personal requirements. Sportstec Mercury's intelligent foundation produces meaningful data including statistical reports, worksheets, trajectories and setters distribution – even live during a match!

Now combine this valuable information with vision of each instance and experience the true, unbeatable power of Sportstec Mercury.

SPORTSTEC MERCURY ENABLES YOU TO:

- > Capture & review statistics, trajectories and video for each player, team, skill and rotation
- > Analyse the setters distribution and easily view statistics, trajectories and video attached to them
- > Produce rich reports and worksheets including graphical representation of intervention areas and attack directions
- > Access match data in real time
- > Create player tapes for scouting and/or post match review
- > Generate HTML match reports that can be easily published to the web
- > Perform “in system” versus “out of system” analysis

TOP 5 REASONS WHY SPORTSTEC MERCURY IS THE SMART CHOICE

1 **Volleyball Smart**

Sportstec Mercury was developed specifically for volleyball by a team of volleyball coaches. It's intelligent mapping of combinations, sets and systems makes it simply powerful.

2 **Easy to Use**

Designed by coaches not software developers. Sportstec Mercury is intuitive, relevant and easy to learn. We understand volleyball and what coaches need. Result – an easy to use, flexible solution that gives you confidence.

3 **The Complete Solution**

Statistics. Video. Trajectories.

This truly powerful combination of match-day data is effortlessly collected and presented within Sportstec Mercury. Coupled with Mercury's powerful database facilities you can simply review all elements of a match.

4 **Flexible**

Sportstec Mercury is a great tool. But we understand that nothing replaces a great coach! Sportstec Mercury gives you the power to determine what you code, analyse and review - we provide you with a great starting point then enable you to set your own coding and analysis parameters.

5 **Innovative**

Sportstec Mercury is supported and now developed by one of the world's leading sports software development companies - Sportstec Limited. Sportstec are the match day, sports software-company of choice for professional teams around the globe because they understand sport and are committed to staying at the forefront of technology trends.

SPORTSTEC LIMITED – SPORTS SOFTWARE SPECIALISTS

Sportstec is a leading provider of sports technology designed to maximise individual and team performance.

Our focus is on helping our clients make the winning difference, using all the benefits of leading-edge technology. That means working closely with individual athletes, coaches, teams, and sporting organizations to develop products that are useful and relevant to their sport and their ambitions.
